

Capgemini Interview Questions Saturday

About project

Write a pgm to count character in a string

Write a pgm to count list of file in directory

```
public class CountFilesExample {      public static void main(String[] args) {  
    int count = new File("D:\\").list().length;  
    System.out.println("Number of file : " + count);  }  
}
```
